

OTCnet Card Processing Hardware Overview

The Bureau of the Fiscal Service is pleased to offer an integrated solution for credit and debit card processing within OTCnet. OTCnet's platform will allow agencies to accept cash, check, and now in-person credit, debit, and Visa/Mastercard gift card payments in a one-stop-shop payment suite.

Card Terminal, Accessories, and Services Quotes

OTCnet's card processing solution will support the Verifone MX 925 multimedia card terminal, offering high definition color display, touch screen, and full audio and video capabilities.

To read more about its key feature and specifications visit:
