# Appropriation Reduced in Special/Trust Expenditure Account **and** Amount Returned to Associated Special/Trust Unavailable Receipt Account (USSGL Accounts 4387 and 4388 Effective FY 2005)

This scenario captures temporary reductions of amounts appropriated from unavailable receipt accounts. These transactions are classified as temporary because the amounts are returned to an unavailable special or trust receipt TAFS. Amounts are appropriated from unavailable receipt accounts through warrant. Therefore, a reduction of the appropriation must also occur through a warrant. The warrant to temporarily reduce the appropriation results in an increase in fund balance in the unavailable receipt account and a decrease in fund balance in the receiving expenditure account. Do not confuse the transactions illustrated in this scenario with permanent reductions of unavailable receipts or with temporary reductions of available receipts – those types of activity are described in other scenarios.

The following two accounts are highlighted in this scenario.

Account Number: 4387

Account Title: Temporary Reduction of Appropriation from Unavailable Receipts, New Budget Authority

Definition: The amount of new budget authority temporarily reduced by enacted legislation in special or non-revolving trust Treasury Appropriation Fund Symbols (TAFS) associated with a receipt account designated by Treasury as "unavailable".

Account Number: 4388

Account Title: Temporary Reduction of Appropriation from Unavailable Receipts, Prior-Year Balances

Definition: The amount of prior-year balances temporarily reduced by enacted legislation in special or non-revolving trust

Treasury Appropriation Fund Symbols (TAFS) associated with a receipt account designated by Treasury as "unavailable".

**Excerpts** from OMB Circular A-11 (2004) guidance for the SF-133, Report on Budget Execution and Budgetary Resources and the Program and Financing (Schedule P) follow. Refer specifically to the "*Include amounts returned to unavailable receipt account*" wording found in each of the line descriptions. Previous to the release of this 2004 guidance, OMB Circular A-11 did not specifically identify reductions of appropriations from unavailable receipts as temporary.
