EXCITING CARS UPDATES

COMING DECEMBER 2020

New Look

A new modern look for the Authority Module (Non-Expenditure Transfers, Borrowings, Appropriation Warrants and Year-End Closing) with user friendly functions and updates: easier search abilities, instant error messages, and so much more.

SHaC

Short Handed Component (SHaC) is a new feature that allows the user to search for a Treasury Account Symbol (TAS) by using, at minimum, the AID and Main parts of the TAS.

Proactive

A new proactive interface is available to enable a user to identify mistakes prior to creating a transaction.

Push TAS Technology

Newly designed interface displays TAS candidates quickly and easily.

PDF

Create a PDF document for each individual transaction with one easy click.
