BUREAU OF THE FISCAL SERVICE

MEMORANDUM FOR ALL CFOS, DEPUTY CFOS and Chief Credit Management Officials

FROM: Linda Chero, Assistant Commissioner, Disbursing and Debt Management
SUBJECT: Annual Requirements for FY 2022 Year-End and CY 2023 Activities

The U.S. Department of the Treasury's Bureau of the Fiscal Service, plays a centralized role in the collection of debt owed to federal agencies. The purpose of this memorandum is to communicate two upcoming requirements related to: 1) FY 2022 year-end *Treasury Report on Receivables and Debt Collection Activities* (TROR) reporting and 2) CY 2023 annual certification agreement for federal nontax debts.

The TROR is the primary means for federal agencies to report information on receivables and delinquent debt due from the public. All federal agencies who report TROR data must also provide a year-end certification and verification. The TROR certification confirms that the delinquent debt information reported on the TROR is accurate and that the relevant debts are legally enforceable. The TROR verification confirms that the ending receivables balance on the TROR reconciles to your agency's financial statements.

Agencies must also sign the annual *Agreement to Certify Federal Nontax Debts*, which covers the referral of federal nontax debts to the Centralized Receivables Service (CRS), Cross-Servicing Program, and the Treasury Offset Program (TOP) for collection purposes. As described in the agreement, when an agency refers a debt to any of these programs, it is certifying, among other things, that the debt is valid and legally enforceable and that there are no bars to collection.

Attached to this memorandum are more details about the two requirements.

We appreciate the opportunity to work with you to increase government-wide collections and ensure the continued success of the debt collection programs.
