Organizational Model: What’s Next?

• What will be in Release 3.2?
  – New role: Disburser Administrator
  – Create/manage your Organization
  – Assign your GT&Cs and Orders to Org Groups

• What will come later?
  – Assign your users to Org Groups
  – Convert existing users to new Org model
  – Control data access through the Organization, not DAGs
  – Sharing a GT&C with other Groups (Host/Tenant)
  – Hiding a GT&C from descendant Groups
  – ALC(s) will be associated with a Group, not a GT&C
    (at least not directly)
Survey Questions

1. Please provide your contact information, including your name, phone number, e-mail address, and agency name.

2. Do any of the rules governing data access under the new organizational model require further explanations or examples? If so, which one(s)?

3. Are there business scenarios at your agency that concern you, related to the new data access (organizational) model? If so, what are they?

4. Does your agency (or your vendor) have any issue(s) with the proposed organizational model data elements on slide 13?

5. Many agencies have requested that GT&Cs be made valid for multiple ALCs. Does your agency have concerns that Treasury might remove the direct reference from a GT&C to an ALC, instead relying on the ALC(s) assigned to the Org Group?
