Intragovernmental Transactions Working Group (ITWG)

Overview

Fiscal Service is working to improve the quality and reliability of Intragovernmental Buy/Sell data through a broad based solution comprised of systems, policies, and accounting improvements to increase transparency and enhancing Governmentwide financial management. G-Invoicing, which supports the exchange of information in Intragovernmental Transactions (IGT) Buy/Sell activity by Federal Program Agencies (FPAs), is one component of this solution.

The ITWG is a monthly interagency workgroup to discuss the G-Invoicing initiative that includes participation from over 60 FPAs and ERP vendors. The ITWG focuses on IGT Buy/Sell data standards and process flow requirements. FPA personnel responsible for reimbursable activity processes are encouraged to attend to gather and share information, as well as to ask questions crucial to their respective FPA. G-Invoicing Program Management uses feedback provided by FPA personnel during meetings, or supplied through confidential surveys, to shape the direction of G-Invoicing enhancements.

To become involved with the ITWG, or to share concerns and/or questions, please email us at IGT@fiscal.treasury.gov.
