OTCnet Release 4.11 Overview

The U.S. Treasury Bureau of the Fiscal Service (Fiscal Service) Over the Counter Division (OTCD) is updating the Over-the-Counter Channel Application (OTCnet) to Release 4.11 in December 2024, which introduces the following updates:

System Updates

- **Address Security Updates:** Ensure the safety of OTCnet by mitigating any vulnerabilities from security scan findings.
- **Clean OTCnet Code Base:** Unused code is removed from the OTCnet code base, allowing the application to run more efficiently.
- **Update Check Capture Forms:** Forms and form packages for Check Capture are no longer sent to Dell ECS.
- **Upgrade OTCnet Offline Jetty series:** Jetty is upgraded to support Java version 10 series.
- **Update New User Provisioning Request Email Notifications:** The new user provisioning email request notification is updated and will resume functionality. Security Administrators within the endpoint hierarchy will again receive an email notifying them when a new user provisioning request has been submitted. The format is also updated from simple text to HTML.
- **Decommission the Statistical Report:** The statistical report on the “Check Processing Reports” page is removed.
