## **Trust Fund Transfers of Contract Authority – Nonallocation Transfers Guidance Specific to the Highway Trust Fund (69X8102) and Recipient Trust Funds (69X8083 and 69X8350)**

### **Background**

This scenario illustrates accounting and reporting of contract authority activity pertaining to the Department of Transportation's Highway Trust Fund (HTF). The Highway Trust Fund consists of a Treasury Appropriation Fund Symbol (TAFS) "corpus" account, and several "recipient" accounts. Only two of the HTF recipient accounts are subject to the guidance in this scenario, and they are listed below. Note, transactions for the HTF "corpus" account are NOT illustrated in this scenario, only the "recipient" accounts are illustrated.

#### Highway Trust Fund TAFS "corpus" account

- 69X8102, "Highway Trust Fund"

#### Highway Trust Fund TAFS "recipient" accounts (non-allocation)

- 69X8083, "Federal-Aid Highways (Liquidation of Contract Authorization), Federal Highway Administration"
- 69X8350, "Formula and Bus Grants, Liquidation of Contract Authorization, Federal Transit Administration, Transportation"

The HTF corpus account is managed by the Bureau of the Fiscal Service (Fiscal Service). The Fiscal Service is responsible for recording the collection and investment of receipts. For example, the Fiscal Service-managed HTF collects earmarked taxes on gasoline and other fuels. The HTF does not have any type of budget authority including contract authority. It does not maintain, track, or record contract authority. Instead, it is the primary **source of funding** for the recipient accounts.

The HTF recipient accounts are managed by the Department of Transportation. All of the contract authority and appropriations to liquidate contract authority reside with the recipient accounts. The recipient TAFS is the account in which contract authority and appropriation to liquidate contract authority are granted and program activities are managed. It captures the activity pertaining to contract authority, the appropriations to liquidate contract authority, as well as obligations and disbursements of the fund. Note that while the appropriation to liquidate contract authority is granted in appropriation acts (for the HTF), the funds (i.e. Fund Balance With Treasury) will not be transferred via SF 1151: Nonexpenditure Transfer Authorization until actually needed for disbursement. This is for cash management purposes so that the interest earned on investments in the HTF corpus account is maximized.

In some instances, however, the recipient accounts are also granted the authority to *transfer contract authority* from one recipient account to another, as well as the authority to *transfer appropriations to liquidate contract authority*. The transfer of contract

authority can be in the form of either allocation or nonallocation transfers, each resulting in different budgetary accounting and reporting on the SF 133/P&F. This scenario, which pertains only to the 3 TAFS listed previously, illustrates the *nonallocation transfers of contract authority*, and required the establishment of two new USSGL accounts. See the account proposals and justifications that follow.

This scenario follows USSGL TFM S2 11-01 (June 2011) fiscal 2011 crosswalks.

**NEW USSGL ACCOUNTS FOR FISCAL 2012:**

**Account Number:** 4153  
**Account Title:** Transfers of Contract Authority - Nonallocation  
**Normal Balance:** Debit

**Definition:** The amount of contract authority transferred between two nonallocation Treasury Appropriation Fund Symbols. This occurs before the actual transfer of funds, which will later be accomplished as a nonexpenditure nonallocation transfer. Only the Department of Transportation may use this account. Although the normal balance for this account is debit, it is acceptable for this account to have a credit balance. This account is reduced at yearend by the amount of appropriations received to liquidate contract authority – nonallocation – transferred. This account does not close at yearend.

**Justification:** To differentiate transfers of contract authority between those that are accomplished as allocation transfers (USSGL account 4137) from and those that are accomplished as nonallocation transfers (USSGL 4153).

**Account Number:** 4154  
**Account Title:** Appropriation To Liquidate Contract Authority – Nonallocation – Transferred  
**Normal Balance:** Debit

**Definition:** The amount of liquidating appropriations received during the fiscal year to fund contract authority transferred from one nonallocation Treasury Appropriation Fund Symbol to another. The transfer is accomplished via SF 1151: Nonexpenditure Transfer Authorization. Only the Department of Transportation may use this account. Although the normal balance for this account is debit, it is acceptable for this account to have a credit balance.

**Justification:** To capture the nonexpenditure transfer of appropriations to liquidate contract authority.

**USSGL Scenario**

**Assumptions Specific to this Scenario**

- Appropriations to liquidate contract authority are classified as discretionary budget authority
- Transfers of contract authority – nonallocation are classified as mandatory budget authority
- Beginning trial balances are not applicable in Year 1 of this scenario
- Trust Fund A and Trust Fund B represent the HTF “recipient” accounts 69X8083 and 69X8350. In practice, the activity illustrated in Trust Fund A also occurs in Trust Fund B. Additionally, the transfers that occur from A to B also occur from B to A.
- The HTF “corpus” account 69X8102 is not illustrated in this scenario

3. Trust Fund A records an appropriation to liquidate contract authority. The amount is appropriated from the Highway Trust Fund corpus 69X8102 (not illustrated) to Trust Fund A for contract authority to be used in either Trust Fund A or Trust Fund B. (Trust Fund A will later be granted the authority to transfer the appropriation to liquidate contract authority to Trust Fund B to cover obligations when needed for disbursement.) Since the Highway Trust Fund corpus is invested, the actual fund balance will not be transferred from the corpus account to Trust Fund A until funds are needed for disbursement.

4. Trust Fund A transfers contract authority to Trust Fund B, prior to the actual transfer of liquidating authority and fund balance. This is based upon legislative guidance. The transfer of contract authority gives Trust Fund B the authority from which to obligate. Trust Fund B must request an SF 1151: Nonexpenditure Transfer Authorization prior to disbursing funds (see transaction #7B).

<sup>5</sup> In this transaction, Trust Fund A is transferring contract authority from current-year authority (Year Of Budget Authority Code domain value “NEW”). If the transfer had represented a transfer of contract authority from prior-year balances instead, domain value “BAL” would have been assigned.

7. Trust Fund B is ready to make a payment and disbursement of funds related to ORDER A, but first must request a nonexpenditure transfer of funds from Trust Fund A. However, in order to transfer funds to Trust Fund B, Trust Fund A must first request a nonexpenditure transfer of funds from the Highway Trust Fund corpus TAFS (69X8102) (corpus not illustrated), <b>representing the appropriation to liquidate contract authority (7A)</b> . The subsequent transfer of funds from Trust Fund A to B will then represent the <i>transfer of the appropriation to liquidate contract authority (7B)</i> .							
7A. To record the nonexpenditure transfer-in (SF 1151) of funds from the Highway Trust Fund corpus (not illustrated) to Trust Fund A. This represents the <b>appropriation to liquidate contract authority</b> . It reduces the receivable amount of the appropriation of contract authority to be liquidated established in transaction #3.

Year 2

4. Trust Fund B is ready to make a payment and disbursement of funds related to ORDER X, but first must request a nonexpenditure transfer of funds from Trust Fund A. However, in order to transfer funds to Trust Fund B, Trust Fund A must first request a nonexpenditure transfer of funds from the Highway Trust Fund corpus TAFS (69X8102) (corpus not illustrated), <b>representing the appropriation to liquidate contract authority (4A)</b> . The subsequent transfer of funds from Trust Fund A to B will then represent the <i>transfer of the appropriation to liquidate contract authority (4B)</i> .							
4A. To record the nonexpenditure transfer-in (SF 1151) of funds from the Highway Trust Fund corpus (not illustrated) to Trust Fund A. This represents the <b>appropriation to liquidate contract authority</b> . It reduces the receivable amount of the appropriation of contract authority to be liquidated that was recorded in year 1.
