

**PRIOR-PERIOD ADJUSTMENTS DUE TO CORRECTION OF ERRORS
-YEARS PRECEDING THE PRIOR YEAR**

EFFECTIVE FISCAL 2022

PREPARED BY:

**GENERAL LEDGER AND ADVISORY BRANCH
FISCAL ACCOUNTING OPERATIONS
BUREAU OF THE FISCAL SERVICE
U.S. DEPARTMENT OF THE TREASURY**

Version History

Version Number	Date	Description of Change	Effective USSGL TFM
1.0	06/03/2010	Original Version	Bulletin No. 2010-04
2.0	08/17/2022	Updated USSGL accounts, trial balances, and financial statement updates.	Bulletin No. 2022-12

Overview

Prior-period adjustments (PPAs) may occur as a result of material corrections of errors and/or changes in accounting principles applied to an agency's prior-year financial statements. FASB's Accounting Principles Board Opinion No. 20 notes that "Errors in financial statements result from mathematical mistakes, mistakes in the application of accounting principles, or oversight or misuse of facts that existed at the time the financial statements were prepared." (Par. 13)

Statement of Federal Financial Accounting Standards (SFFAS) No. 21, *Reporting Corrections of Errors and Changes in Accounting Principles*, requires entities to restate prior period financial statements for material corrections of error(s) identified in the current period, if the statements are provided for comparative purposes and if the effect of the error(s) would be material in either period. "When errors are discovered after the issuance of financial statements, and if the financial statements would be materially misstated absent corrections of the errors, corrections should be made as follows:

- If only comparative financial statements are presented the cumulative effect of correcting the error should be reported as a prior period adjustment to the beginning balance of cumulative results of operations in the statement of changes in net position (See SFFAS 21, Par. 10a, and Statement Presentation Table below.)
- If the earliest period presented is not the period in which the error occurred and the cumulative effect is attributable to prior periods, then the cumulative effect should be reported as a prior period adjustment to the beginning balance of cumulative results of operations, in the statement of changes in net position for the earliest period presented. (See SFFAS 21, Par. 10b and Statement Presentation Table below.)

For changes in accounting principles, prior period financial statements should not be restated, unless specified by the newly respective accounting principles. This scenario focuses on PPAs as they relate to corrections of errors **only**.

As a result, the Reclassified Statement of Operation and Changes in Net Position (RSOCNP) crosswalk has separate lines and USSGL accounts to distinguish between corrections of errors for the prior year (USSGL account 740000) and corrections of errors in years preceding the prior year (USSGL account 740500).

Due to the complexity of the scenario and the manner in which it is presented, we suggest the use of a color printer when generating a hardcopy.

For purposes of this scenario:

- Budgetary transactions are highlighted in light green
- Proprietary transactions are highlighted in blue
- And "Work Paper Only" transactions are highlighted in peach

Statement Presentation Table (for material errors only)

	If Comparative Financial Statements Are Being Presented (that is, XXCY and XXPY):	If Only Current Period Statements Are Being Presented (that is, XXCY):
If the error occurred <u>during</u> the earliest affected period presented in the financial statements (i.e., XXPY):	Then, the adjustment is made to the earliest affected period presented by correcting any individual amounts on the financial statements. See Correction of Errors that Occurred in Previous Periods Prior-Period Adjustments (Financial Reporting) and Prior-Year Adjustments (Budgetary Reporting) Scenario.	Then, the adjustment is made to the beginning balance of cumulative results of operations on line 11B (Corrections of errors) of the SCNP. (USSGL account 740000). Also, adjustment made to beginning balance of cumulative results of operations on the RSOCNP if non-federal, line 2.2 (Corrections of errors – non-federal) and if federal line 3.2 (Correction of errors – federal (RC 29)). (USSGL account 740000).
If the error occurred <u>before</u> the earliest period presented in the financial statements (i.e., XXPY-1):	Then, the adjustment is made to the beginning balance of cumulative results of operations on the SCNP, line 11B (Corrections of errors), for the earliest period presented. (USSGL account 740500) This scenario reflects this example.	Then, the adjustment is made to the beginning balance of cumulative results of operations on the SCNP, line 11B (Correction of errors). (USSGL account 740000). Also, adjustment made to beginning balance of cumulative results of operations on the RSOCNP if non-federal, line 2.2 (Corrections of errors – non-federal) and if federal line 3.2 (Correction of errors – federal (RC 29)). (USSGL account 740000).
Note: The Statement of Changes in Net Position (SCNP) current-year unadjusted beginning balance must agree with the restated ending balance shown on the prior-year SCNP. USSGL account 740500 can be used only if comparative financial statements are being presented.		

This scenario uses Prior Year Adjustment Code (PY Adj) as they are defined in the USSGL Treasury Financial Manual (TFM) which is governed by OMB Circular No. A-11.

PY Adj Attribute Definition for GTAS Reporting

Use when changes to obligated or unobligated balances occurred in the previous fiscal year but were not recorded in the appropriate Treasury Appropriation Fund Symbol (TAFS) as of October 1 of the current fiscal year or during the GTAS window. Exclude upward and downward adjustments to current-year/prior-year obligations and most reclassifications from clearing accounts.

Domain Definitions

“B” – Adjustments to prior-year reporting backdated in Treasury’s central accounting system

Use when a PYA **does** affect the Fund Balance With Treasury (FBWT) and **is** backdated in Treasury’s central accounting system after the GTAS window has closed for the period being adjusted.

“P” – Adjustments to prior-year reporting not backdated in Treasury’s central accounting system

Use when a PYA **does not** affect FBWT and **is not** backdated in Treasury’s central accounting System after the GTAS revision window has closed for the period being adjusted.

“X” – Not an adjustment to prior-year reporting

Use when a PYA does not meet the requirements of domains “B” or “P” and for current-period activity. **Note:** For situations involving the GTAS revision window, and the prior-year attribute domain value “X”, refer to OMB Circular No. A-11, Appendix F, Section 15 for more detail.

Note: The flowchart on the following page can assist with determining:

- 1) Whether or not to restate prior-year financial statements;
- 2) Whether to use USSGL account 740500, “Prior-Period Adjustments Due to Corrections of Errors -Years Preceding the Prior-Year,” or a different account.
- 3) Which PY Adj attribute to use and
- 4) Which financial statement the collective information impacts.

*As explained earlier, USSGL account 740000 is used if the agency reports single year financial statements. Otherwise use USSGL account 740500.

Please refer to OMB Circular No. A-11, Appendix F, Section 15, and work with OMB and Treasury to determine if a backdated Treasury document is required.

Restated: Transaction 1

Restated: Transaction 2
Restated: Transaction 3

Note: For situations involving the GTAS revision window, and the prior-year attribute domain value "X", refer to OMB Circular No. A-11, Appendix F, Section 15 for more detail.

This document provides guidance for correcting both financial and budgetary reporting errors. The following scenario assumes the activity occurs in a no-year Treasury Account Symbol (TAS). As presented graphically in the previous flowchart, there are six possible reporting outcomes when correcting errors, however, **this scenario only addresses the restated material errors**. The transactions, listed in the detailed chart below, correspond with the transaction numbers in the illustrative transaction section and represent each of the three possible outcomes.

Illustrative Transaction No.	USSGL Account	Transaction Amount	AFFECTS PROPRIETARY		AFFECTS BUDGETARY		
			Is it Proprietarily Material? ¹	Are Comparative Financial Statements Presented?	Is FBWT-USSGL Account 101000 Affected?	Is a backdated document required?	Results
1	490100 Delivered Orders – Obligations, Unpaid	\$4,000,000	YES	YES	NO	Does Not Apply	Not backdated. Use attribute “P.”
2	490200 Delivered Orders – Obligations, Paid	\$6,000,000	YES	YES	YES	YES	Backdated. Use attribute “B.”
3	490200 Delivered Orders – Obligations, Paid	\$250,000	YES	YES	YES	YES	Backdated. Use attribute “B.”

¹ Each agency should determine its materiality threshold. This scenario assumes that all “YES” answers in this column indicate the amount is material.

Listing of USSGL Accounts Used In This Scenario

Account Number	Account Name
<u>Budgetary</u>	
411900	Other Appropriations Realized
420100	Total Actual Resources – Collected
445000	Unapportioned - Unexpired Authority
451000	Apportionments
461000	Allotments – Realized Resources
490100	Delivered Orders – Obligations, Unpaid
490200	Delivered Orders – Obligations, Paid
<u>Proprietary</u>	
101000	Fund Balance With Treasury
198000	Asset for Agency's Custodial and Non-Entity Liabilities – General Fund of the U.S. Government
201000	Liability for Fund Balance With Treasury
211000	Accounts Payable
310000	Unexpended Appropriations – Cumulative
310100	Unexpended Appropriations – Appropriations Received
310500	Unexpended Appropriations – Prior-Period Adjustments Due to Corrections of Errors – Years Preceding the Prior Year
310700	Unexpended Appropriations – Used- Accrued
310710	Unexpended Appropriations Used - Disbursed
320100	Appropriations Outstanding – Warrants Issued
320700	Appropriations Outstanding - Used - Accrued
320800	Appropriations Outstanding – Prior – Period Adjustments
331000	Cumulative Results of Operations
570000	Expended Appropriations -Used - Accrued
570005	Appropriations - Expended - Accrued
570010	Expended Appropriations - Disbursed
570500	Expended Appropriations – Prior-Period Adjustments Due to Corrections of Errors – Years Preceding the Prior Year
570810	Appropriations – Expended- Prior-Period Adjustments
610000	Operating Expenses/Program Costs
740500	Prior-Period Adjustments Due to Corrections of Errors – Years Preceding the Prior Year

Assumptions

1. For the illustrative transactions that begin on page 15, assume the following:
2. The following entries in this scenario show that unapportioned authority is reclassified from the PY Adj attribute domain value “X” to the “P” or “B” domain value when a Prior Year Adjustment transaction is processed. Please refer to OMB Circular No. A-11, Appendix F, Section 15, and work with OMB and Treasury to determine if a backdated Treasury document is required.
3. If a back dated document is needed, the entity should complete a back dated document request located at: [Backdated Treasury Documents - Budget Community - MAX Federal Community](#)
4. Prior-period and prior-year adjustments are not standard so there will be transactions that do not have Transaction Codes listed.
5. The materiality of a transaction, with respect to restatement requirements, is known when posted.
6. The agency’s accounting system for the prior period cannot be reopened.
7. The activity occurs in a no-year TAFS.
8. The GTAS BEA Category Indicator Attribute for illustrations purposes is discretionary.
9. The GTAS Reimbursable Flag Indicator is direct.
10. General Fund Transactions have been added to scenario.
11. Comparative financial statements are presented.
12. Budgetary transactions highlighted in light green are prior-year activities that flow to the “Fiscal 2022 Prior-Year Adjustments Activity,” Column 7 of the *Financial System Activity and Trial Balance for Budgetary Accounts* chart, on page 25.

13. Proprietary transactions highlighted in blue are PPAs that: require financial restatement; flow to the “FY 2022 Prior-Period Adjustments,” Column 3 of the *Work Paper Trial Balance for Proprietary Accounts* chart, on page 26; and are entered into the accounting system.
14. “Work Paper Only” transactions highlighted in peach are PPAs that: require restatement; flow to the “FY 22 Prior-Period Work-Paper Adjustments,” Column 4 of the *Work Paper Trial Balance for Proprietary Accounts* chart, on page 26; and are not entered in an agency’s accounting system. These transactions occur outside the system and are used in calculations to determine amounts to be presented in published restated financial statements and reports. When the agency’s system cannot be reopened, balances still must be impacted appropriately. However, current-period financial statements cannot be prepared directly from the agency’s accounting system. Therefore, Work Paper adjustments are necessary.
15. All transactions not highlighted: are current-year transactions, are posted in the accounting system, and do not fall into any of the three highlighted categories (green, blue, or peach).

Prior-Year Trial Balances

System Pre-closing Trial Balance – Fiscal 2021

USSGL Account	Debit (in thousands)	Credit (in thousands)
<u>Budgetary</u>		
411900 (X) Other Appropriations Realized	12,000	
445000 (X) Unapportioned - Unexpired Authority		11,000

Total	12,000	12,000

Illustrative Transactions (The agency produces comparative financial statements.)

Note: Amounts in this Scenario are rounded in the thousands.

A. To record budgetary authority apportioned by the Office of Management and Budget and available for allotments. OMB apportions \$10,250,000 of the \$11,000,000 prior-year unobligated balance. (Refer to page 13 for beginning balance) Generally, the initial apportionment will not include an amount to cover corrections of errors.							
System Only				Work Paper Only			
	DR	CR	TC		DR	CR	TC
<u>Budgetary Entry</u> 445000 (X) Unapportioned - Unexpired Authority 451000 Apportionments	10,250	10,250	A116	<u>Budgetary Entry</u> None			
<u>Proprietary Entry</u> None				<u>Proprietary Entry</u> None			
General Fund of the U.S. Government (099)							
<u>Budgetary Entry</u> None							
<u>Proprietary Entry</u> None							

B. To record the allotment of authority. The agency allots \$10,250,000 of the \$11,000,000 prior-year unobligated balance.							
System Only				Work Paper Only			
	DR	CR	TC		DR	CR	TC
<u>Budgetary Entry</u> 451000 Apportionments 461000 Allotments – Realized Resources	10,250	10,250	A120	<u>Budgetary Entry</u> None			
<u>Proprietary Entry</u> None				<u>Proprietary Entry</u> None			
General Fund of the U.S. Government (099)							
<u>Budgetary Entry</u> None							
<u>Proprietary Entry</u> None							

1. During fiscal 2022, an error that occurred in fiscal 2020 was discovered. The error understated expenses by \$4,000,000. A bill for a delivered unpaid order had not been recorded. No prior related obligation had been previously recorded. **The error is material** and requires restatement of the proprietary financial statements. ²

System Only				Work Paper Only ³			
	DR	CR	TC		DR	CR	TC

570810 (F) Appropriations – Expended- Prior-Period Adjustments				4,000			
320800 (F) Appropriations Outstanding – Prior – Period Adjustments Due to Corrections of Errors				4,000			

² A budgetary entry also is required to reflect a beginning balance adjustment. The PYA attribute domain value “P” is used because FBWT is **not** affected. A matching backdated Treasury central accounting document is not prepared after the GTAS window period has closed for the period being corrected.

³ Cross reference all “Work Paper Only Entries” to page 26.

⁴ USSGL account 490100 was used because USSGL account 480100 was not previously recorded.

1B. Because the prior-year unobligated balance was carried over and then allotted, the agency must show the decrease to the current year accounts 461000 and 445000.

System Only				Work Paper Only			
	DR	CR	TC		DR	CR	TC
<u>Budgetary Entry</u>				<u>Budgetary Entry</u>			
461000 ⁵ Allotments – Realized Resources	4,000			None

201000 (F) Liability for Fund Balance With Treasury					250		
198000 (F020) Asset for Agency’s Custodial and Non-Entity Liabilities – General Fund of the U.S. Government						250	
570810 (F) Appropriations – Expended- Prior-Period Adjustments					250		
320800 (F) Appropriations Outstanding – Prior – Period Adjustments Due to Corrections of Errors						250	

⁹ A budgetary entry also is required to reflect a beginning balance adjustment. The PYA attribute domain value “B” is used because the agency referred to OMB Circular A-11, Appendix F, Section 15 and worked with OMB & Treasury to determine that a back dated document was needed. A backdated Treasury central accounting document is prepared after the GTAS window period has closed for the period being corrected.

¹⁰ TC B102 substitute D306 for proprietary.

3B. Because the prior-year unobligated balance was carried over and then allotted, the agency must show the decrease to the current year accounts 461000 and 445000.

System Only				Work Paper Only			
	DR	CR	TC		DR	CR	TC
<u>Budgetary Entry</u>				<u>Budgetary Entry</u>			
461000 ¹¹ Allotments – Realized Resources	250			None			
445000 (X) Unapportioned – Unexpired Authority		250					
<u>Proprietary Entry</u>				<u>Proprietary Entry</u>			
None				None			

Note: No examples of PYA attribute domain value “X” are shown for prior-year errors in this scenario because the "X" is only used with a backdated document during a GTAS revision window. When using USSGL account 740500, the "X" will not apply because USSGL account 740500 is used when the error is discovered in years preceding the prior-year. Therefore, with USSGL account 740500, the error would be discovered too late to correct something during the GTAS revision window.

¹¹ An attribute to crosswalk to the SF 133 is not needed.

Fiscal 2022 Accounting System Activity Summary

(Assumes agency's accounting system was not reopened to record PPAs or PYAs.)

USSGL Budgetary and Proprietary Accounts	System Post-closing Trial Balance Fiscal 2021	System Activity Fiscal 2022 (Transaction A and B)	System Activity Fiscal 2022 (Transactions 1,2, and 3)	System Pre-closing Trial Balance Fiscal 2022 (calc.
