The 5 Ws of TFX – Why?

Why are we changing?

A look back...

Fiscal Service started the journey to reimagine the Federal Financial Management experience.

2017: Initial assessment of TFM Vol. 1, conducting 8 Focus Groups with over 350 participants, which identified significant issues in quality, consistency, search, content and external linking.

2019: TFX was initiated to address these issues and ultimately become a user-centric resource, integrating information across multiple areas to streamline financial management and provide a more personalized experience for those who use it.

Now

TFX will become one-stop-shop for Fiscal Service policy, guidance, and instruction.
