PROPOSED NEW USSGL ACCOUNTS FOR FISCAL 2015

Account Title: Funds Not Available – Adjustments to the Exchange Stabilization Fund
Account Number: 463500
Normal Balance: Credit
Definition: Funds not available for commitment/obligations. The amount of increase or decrease in the Exchange Stabilization Fund as a result of revaluation, foreign exchange rate adjustments, and special liabilities (general allocations and special drawing rights certificates). Although the normal balance in this account is a credit, it is acceptable in certain instances for this account to have a debit balance when a loss is recognized. This USSGL account is to be used only by the Department of the Treasury. This account does not close at year-end.

Justification: This account was created as it does not close where 463000 does close.

Account Title: Authority Transfer Control In
Account Number: 577700
Normal Balance: Credit
Definition: Offset for the monitoring of the movement of Fund Balance with Treasury or activity to another Treasury account symbol. This account is for the General Fund of the Treasury use only.

Justification: The General Fund has a need for an account similar to USSGL Account 577600 “Nonbudgetary Financing Sources Transferred Out,” but with a Domain Value of “Blank” for the Fed/Non-Fed attribute. They need this account to properly account for transfers between agencies without causing elimination issues. The General Fund is not a direct trading partner in these transactions and only uses the transfer account as a means to track the change. These accounts would be effective FY2015 and on May’s Ballot.
