This USSGL account can only be used by the Department of Defense Working Capital Fund.

Fiscal Year 2023 Ballot items - New

• 134900 – Interest Receivable on Uninvested Funds
  – Interest receivable on uninvested funds (further described in TFM Volume I, Part 2, Chapter 4600) currently is reported within USSGL 134000 “Interest Receivable - Not Otherwise Classified.” However, the portion of interest receivable on uninvested funds needs distinguished from other types of federal interest receivable and federal receivables. Interest receivable on uninvested funds should crosswalk to Interest Receivable, Loans (Line 4.1 of the Balance Sheet) within the Loans Receivable, Net line on the Balance Sheet, while other types of federal receivables crosswalk elsewhere.

• 161020 – Investments in Marketable U.S. Treasury Securities Purchased on the Secondary Market
  – Certain U.S. Treasury securities may be purchased on the secondary market rather than directly through the Treasury. When agencies hold these securities purchased on the secondary market, the securities must be manually reclassified from debt held by the public to intragovernmental debt holdings. Currently, there is no specific USSGL account in which agencies can report this activity.
Fiscal Year 2023 Ballot items - New

• 161120 – Discount on Marketable U.S. Treasury Securities Purchased on the Secondary Market
  – Same justification as 161020, but this one is for the discount reporting.

Updates After April IRC Meeting

• Proposed Secondary Market USSGLs
  – Originally Balloted for FY22, but now FY23 effective date.

• Modification to Transaction Code (TC) F148
  – It now says To record the return of an appropriation originally derived from the General Fund of the U.S. Government that is reduced by an amount equivalent to the offsetting collections or receipts. This transaction is accomplished with a negative appropriation warrant request submitted to Treasury.

• 599750 – Financing Sources Transferred In From the Custodial Statement Collections – Contract Account
  – Added to the background to make clear that it is for FY 2023 and later and disclaimer that the published Custodial Guidance is still to be used by the recipient agency.
Updates After April IRC Meeting

  – This USSGL needs to crosswalk to Schedule P – Lines 5000 and 5001. Please note this USSGL also crosswalks to the Balance Sheet.

• Modification to Statement of Budgetary Resources
  – On both the FY 2022 and FY 2023 crosswalks on line 1071 for USSGLs 487200 and 497200 we mistakenly left the F/N indicator off on four lines. Updates have been made.

• Balance Sheet - New Lines 6.3 and 26.6
  – At the IRC several agencies raised concerns about the word “reimbursable” being part of the title. At the time of publication, several options are being discussed and will be shared soon.
