Download Firmware

To download firmware, complete the following steps:

1. From the **Administration** tab, click **Manage Centralized Deployment** >**Download Release**.

2. From the **Application** drop-down menu, select **Firmware**.

3. Click **Next**. The *Select Firmware for Download* page appears.

Application Tips

- Prior to each firmware upgrade, the currently installed firmware version must be uninstalled first.
- Firmware upgrades are operating system (e.g., Windows 11 or Windows 10) and scanner (e.g., EC7000i, EC9100i, EC9600i, EC9700i, Panini MyVision X) specific.
- Each firmware version has a corresponding terminal configuration(s) that it supports (by scanner and by operating system). Determine the appropriate firmware upgrade by firmware version, scanner, and operating system before downloading.

4. Click the **Firmware** hyperlink to download the firmware. The *Review Firmware Download* page appears.

5. Click **Download** as shown in **Figure 1**. The *Save Program* dialog box appears.
