Search an Audit Log Offline

To search an audit log using OTCnet Offline, complete the following steps:

- 1. From the Administration tab, select Audit. The Search Audit Logs page appears.
- 2. Enter the search criteria for the activities you would like to view.

Under Search Criteria, optional

- Select a **Module** type, optional
- Enter a User
- Select an **OTC Endpoint**
- Enter the From and To date and time ranges, required
- Select a Keyword, required
- Select a Category Name
- Enter the Terminal ID
- Enter the Batch ID
- Select an Event Type
- Select an Operation Mode

Application Tips

- The **Module** drop-down options vary by user role. **Module** options include **Administration**, **Check Processing**, and **Deposit Processing**.
- If you do not know the full name of the OTC Endpoint, enter a partial name search (as few as one letter) in the **Starts with** text box and select the **Select From List** icon (magnifying glass).
- The **From** and **To Created On Date** must be entered in MM/DD/YYYY format and cannot exceed 30 days.
- The Keyword and Category Name drop-down options vary by user role.
- Event Types are categories of events recorded by the audit log as shown in Table 1Table 1. Event Types.
- Operation Mode option includes Offline.

Table 1. Event Types

| Event Type | Description |
|---------------|---|
| All | Includes all event types in the audit log |
| Error | Error entries are created when the system is unable to complete an action. |
| Informational | Information entries are general records of the activity that has happened while using OTCnet. |
| Warning | Warning entries are created to inform the user when events of note have taken place. This includes cancelling an action, deleting information from the system and inactive users. |

3. Select Search. The Search Results table appears.

Application Tips

- If you run a search without specifying any criteria, the search results include all activities in the system that you have access to view. Run additional searches and the *Search Results* table repopulates with the results of the new search.
- Select **Download** to download the search results.
- Select Print Audit Log Records to print a formatted audit log record.

Application Tip

If the audit log records contain **Personally Identifiable Information (PII)** in the **Transaction Description**, the data is masked. To view more details about a specific batch including PII, access **Batch Management**.

4. Select **Download** to download the search results as shown in Figure 1. Select **Print Audit Log Records** to print a formatted audit log record.
